

JHON ALEJANDRO VASQUEZ MORALES

Full Stack Developer | Next.js / React | Backend APIs | Process Automation & Scalable Systems
Pereira, Colombia | +57 302 421 4750 | jhonvasquez9367@gmail.com | linkedin.com/in/javasquez26 | codedbyjav.cc

PROFESSIONAL SUMMARY

Full Stack Developer and Technology Manager with 5+ years of experience building web platforms, administrative portals, workflow automation, internal systems and data-driven tools for education, public-sector and service organizations. Hands-on with Next.js, React, TypeScript, PostgreSQL, Prisma, Redis, Docker, JWT/RBAC and API development, with a strong focus on scalable architecture, usability and operational impact.

TECHNICAL SKILLS

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, ShadCN UI, TipTap, Chart.js, responsive design, UX/UI, Figma
Backend / APIs: Next.js API Routes, Node.js, Express, Python/FastAPI, Prisma ORM, REST APIs, JWT, RBAC, validation and authorization
Data / DevOps: PostgreSQL, MySQL, Firebase/Firestore, Redis, MinIO Storage, Docker, Linux, VPS, GitHub Actions, n8n, cache/TTL
Integrations: Google Sheets API, Google Forms API, Gemini API, Phidias data sync, external data pipelines, reporting automation

SELECTED SOFTWARE EXPERIENCE

Servicio Nacional de Aprendizaje (SENA) - Senior Full Stack Developer - Project Contract

Dosquebradas, Colombia / Remote | 2025

- Developed an administrative portal with RBAC, role-based permissions, module-based tables, data validation and data virtualization to improve internal operations.
- Built a headless CMS for dynamic content management, including a customized TipTap rich-text editor and event-calendar workflows tailored to institutional needs.
- Implemented backend services with Next.js API Routes, PostgreSQL/Prisma, Redis cache with TTL, JWT authentication and role-based authorization; delivered UI with React, TypeScript and Tailwind CSS.

Liceo Taller San Miguel - Technology Manager / Full Stack Developer

Pereira, Colombia | 2021 - Present

- Lead technology strategy, IT operations, infrastructure and internal software development for academic, administrative and institutional tracking processes.
- Designed and implemented ANGEL/Tracking, Insights and internal portals, improving student follow-up, automating teacher-evaluation reporting and reducing paper-based workflows.
- Integrated data from Google Sheets, Google Forms and Phidias through scheduled synchronizations, Python scripts and Docker/n8n automations; coordinated adoption, documentation and user training.

EcoTecnologia S.A.S. - IT Systems Technician

Pereira, Colombia | 2019 - 2020

- Configured Linux/Ubuntu servers, VPS, shared hosting, domains, web services, databases and backups; supported networks, hardware, software and cloud services for business clients.

SELECTED TECHNICAL PROJECTS

ANGEL + Tracking LTSM | *Next.js, Prisma, PostgreSQL, Docker, MinIO Storage, Redis, Phidias integration*

- Extended ANGEL with tracking.liceotallersanmiguel.edu.co to synchronize student absence reports from Phidias and help teachers, coordinators and psychologists track absences, disciplinary notes and counts by level/grade.

Sample Management System - Acueducto Tribunales Córcega | *refactoring, RBAC, security, photo records, mobile optimization*

- Refactored an existing sample-management application to improve architecture, security, role validation, record management, operational modules, photographic evidence and mobile usability.

Acueducto Tribunales Córcega Website | *Next.js, UX/UI, modern responsive site*

- Modernized the public website into a clearer, more intuitive and mobile-friendly experience, improving information structure, navigation and user experience.

Artemisa + Insights LTSM | *Next.js, TypeScript, FastAPI, PostgreSQL, Redis, Firebase, Google Forms API*

- Built AI-assisted teacher-planning and evaluation tools with reusable UI components, dashboards and automated feedback to reduce manual consolidation work.

EDUCATION AND CERTIFICATIONS

B.S. in Systems and Computer Engineering - Universidad Tecnológica de Pereira | 2025

Technologist in Systems - Servicio Nacional de Aprendizaje (SENA) | 2017

Web Application Programming Technical Program, 800 hours - Universidad Autónoma de Bucaramanga | 2023

Certifications: Linux and SQL; Networks and network security; Technical Support Fundamentals; Computer Networking; Cybersecurity Fundamentals.
